MEXICA YES! HISPANIC NO!

MEXICAN & "CENTRAL AMERICAN" PEOPLE!

LATINO IS A RACIST IDEA

Remember that there is no such thing as a "Latino" nation, race, or ethnic group. "Latino" just means Latin in Spanish. Latin refers to the European colonists (Spaniards, Portuguese, and French) and their colonial possessions, not our people. The "Latino" labeling of our people is a colonialist-racist act of Genocide—an attempt to "kill off" our people's true identity, history, independence, and our rights to our continent and its wealth. Collectively, we have no majority Latin genealogy (European), Latin blood group or DNA or a common Latin culture. It's like saying African Americans are British because they speak English and have British surnames, and mostly have some white blood. We are a people with an overwhelmingly majority Indigenous blood group. Our true heritage and history has nothing "Latin" or "Latino" about it, other than colonialism.

When people speak of Latinos/Hispanics they know that it refers to Mexicans, "Central Americans", and other Indigenous people. Yet we are not Hispanic or Latino.

Ironically Anglo white and African descent people don't associate Spaniards, Argentines, Cubans and others who are of European descent with Latino or Hispanic. Yet an Hispanic is just a Spaniard. A Spaniard is a European. We are not Spaniards or Europeans. We are the people who are Indigenous to this land, this continent, Anahuac. We are Mexica (Meh-shee-kah) in our culture. 99% of us are Indigenous. 69% of us are Indigenous people of Mixed-blood, but over 30% of us are Full-blood Indigenous people.

ANAHUAC

The Nican Tlaca (Indigenous) nation of Anahuac ("North America"), our continent, is today divided into nine European-descent controlled areas called Mexico, Guatemala, "El Salvador" (Cuscatlan), "Honduras", Nicaragua, "Costa Rica", "Belize", Canada (Kanata), and "the United States". These artificial colonial divisions of our continent and our Nican Tlaca people are the result of the last 500 years of European invasion, colonialism, and genocide. We need to look at our whole continent and all of our people as one. Forget Hispanic/Latino, "Native American", and all of the other things that divide our people and our continent.

We have between 4 and 5 thousand years of civilized history without Europeans on our continent, and another 40,000 to 50,000 years of being on this continent, without Europeans. The current enslaved condition of our people, and the theft of our continent, does not permanently define us as property of the Europeans ("whites").

We have to change the colonized condition of our people on this continent—forget the European borders and European languages. We need to be taught the true and complete Pre-1492 history of our people—in a positive and constructive manner! The basics of that history are on this sheet of paper. Open your mind so that this truth may set you free. Open your heart so that so that you can freely embrace this truth.

ACCOMPLISHMENTS OF OUR PEOPLE

Our beginnings as a civilized people began before Rome or Athens were even started. We began our civilization before any part of Europe was even civilized! Our civilization is over 4,300 years old. We originated our own civilization on our continent without the aid or influence of Europe, Asia, or Africa. Racists still refuse to give us credit for our accomplishments or our civilizations.

Our Anahuac civilization created and developed magnificence in art and architecture out of our own genius. We made discoveries in mathematics, engineering, astronomy, and medicine (better doctors, nurses, hospitals, antibiotics, anesthetics, surgery, dentistry, and medicines than the Europeans).

We were first class thinkers, inventors, philosophers, and visionaries. We had dozens of large cities (Tenochtitlan had over 350,000 people, Cholula and Tlaxcala each had over 100,000) and dozens of large towns of 50,000 or more in population. The population of these three cities was larger than any city in Europe. London, Europe's largest city, only had a population of 80,000 inhabitants.

We had independently developed sciences, agriculture, commerce, and all of the civilized arts—all of this began long before 2300 B.C. We were the first people in the history of humanity to have mandatory education for males and females, of all ranks in our society. We had developed universities that were in many ways superior to those of Europe. We had libraries in all of our cities and major towns. Our written literature was extensive. We had the world's most accurate calendar and the greatest scientific cosmology-theology in the history of the world.

We were the first people to develop the mathematical concept of zero and positional values. We created our own world of brilliant accomplishments and genius. Our ethics, morality, logic, and legal system were equal to or better than most found in the world at that time. We created one of the greatest civilizations in the history of the world. Our future was bright and blossoming. Our people had the necessary proven intelligence, motivation, creativity, and the natural resources of our continent to have made us the greatest and the wealthiest of all nations. But this greatness and wealth was all stolen from us.

EUROPEAN TERRORISM

Europeans first assaulted our continent ("The Western Hemisphere") with their terrorist

attacks of 1492 (Columbus the savage pirate, enslaver, and genocidal murderer). In 1519, Europeans (Cortez, the twin beast of Columbus) invaded our Anahuac lands (Mexico, "Central America"), with more terrorism, massacres and enslavement.

The Europeans (Spaniards, French, and English) broke up our continent of Anahuac cultural lands into what they called: Canada, "The United States", "The Louisiana Purchase" (1803); Mexico (1821); "Central America" (1823); and the "U.S. Southwest" (Texas in 1836 and the rest in 1848). They divided our continent with European colonial borders. This was all a way of making us foreigners on our own continent, to deprive us of the immense wealth of our continent. We have been made slaves to the interests of European squatters on our continent for the last 500 years.

GENOCIDE OF 23 MILLION OF OUR PEOPLE

Throughout this whole campaign of terror, theft, and Genocide, that Europeans have falsely called "discovery and exploration", they actually were murderous terrorists, pirates, barbaric vandals, graverobbers, enslavers, thieves, liars, rapists, treaty breakers, and a culture of uncivilized savage people. They used deceit, dishonesty, and dishonorable behavior as tools against us. They also used biological weapons as their cowardly weapon of choice against us—in the form of smallpox. This monstrous biological warfare is what truly destroyed the military defenses of our people. It was not horses or canons, or "military genius" that defeated us and killed millions of our people. Smallpox as a weapon is the secret of European success as capitalists.

There has been **nothing civilized, Christian, moral, or ethical in the behavior of Europeans** since the moment that they illegally set foot on our continent. They killed unarmed men, women, and children massive massacres. They beat, mutilated and tortured our people in order to keep us terrorized, and in a state of constant submission to the process of genocide and the theft of the rich resources of our continent.

In the last 500 years, in addition to the terrorizing of our people, the theft of our continent and the theft of our wealth and natural resources, we have seen: the enslavement of our people; our life-or-death forced conversion to Christianity; the destruction of our Anahuac cities; the burning of our libraries; the execution of our leaders; the theft of our cultural wealth; the theft of our labor; and the theft of our true Anahuac identity, history, heritage, and theology. We have a right to demand the return of our continent to our people.

MODERN SLAVERY AND GENOCIDE

Throughout the centuries of our enslavement **we have not known** of these genocidal crimes of the Europeans or of our great accomplishments. It has all been hidden to keep us ignorant of our own true wealth (the resources of our continent) and to protect the guilty criminals—the Europeans and their descendants on our land who have stolen our wealth, and who are still holding our wealth and our continent. This knowledge has been hidden from us to keep us slaves to European culture and interests. The "Hispanic" and "Latino" false labeling of our people are part of our enslavement.

This 500 year history of colonialism and genocide, of ongoing injustices and ignorance, has to stop. **Ignorance is slavery. Knowledge is power!** The truth will liberate our people! Arm yourself with the knowledge on this flier! Learn that you are Mexica! Learn that we are part of the Anahuac nation! Learn that this is all our continent! Europeans should also know this truth!

Mexica Movement Protesting in Baldwin Park, Glendale, and Burbank 2005-2006 against the Minutemen, SOS, and other racists.

WHY WE PROTEST THE RACISTS: NEO-NAZIS, SOS, & MINUTEMEN

1) **ILLEGALS** We protest against these racists to remind them that the only illegals on this continent are the ones that came after 1492. This not their land, this is not their continent, **THIS IS OUR CONTINENT!** They will not tell us where we can go on our own continent.

Their continent is called Europe. Their lands are England, Spain, France, and the rest of Europe. They are free to go there anytime.

2) **OUR CONTINENT** We remind these racist that we, Mexicans and "Central Americans" are part of the Nican Tlaca (the Indigenous people of this continent), the true and only legitimate owners of this continent. We are Nican Tlaca with or without their permission, with or without their borders, with or without their languages, with or without their culture, with or without their racist oppression on our people.

We are the Nican Tlaca of this continent, the full-blood and the mixed blood Indigenous people of this continent. We are collectively the owners of this whole continent! We are speaking as Nican Tlaca, not as colonists and not as a colonized people! We are **NOT Hispanic** (Spaniards) and **NOT Latinos** (descendants of Romans). We are Nican Tlaca, without the European borders on our continent.

3) **THEFT OF RESOURCES** We protest against these racists to remind them that Europeans and their descendants are the only ones who have crossed a border---the Atlantic Ocean. They are the only ones who are the true illegals, foreigners, aliens. They are the unauthorized occupiers of our continent. We gave them no green cards, no passport, no permission to remain on our continent. They are the ones that are **the violators of our sovereignty** and our rights to our lands, our continent, and all of its wealth. They are the thieves of our vast wealth of natural

resources. They are the thieves of our farmlands, our rivers, our forests, our oil, our gold, our iron ore, our vast mineral wealth. They are also the thieves of our freedom to be Nican Tlaca, to be free from Europeans controlling our lives, controlling our continent.

4) **RACISM** We protest to remind them, and our own people, that our issues are not just about the 1846-48 Mexican American War or the "Southwest" borders of the Spaniards--this is about the whole continent! These problems with "illegals" began in 1492 with the European invasion of our continent. How dare these monsters call us "illegals", "thieves of jobs and resources", and **to say that we crossed a border!** Let's all remind them of the Atlantic Ocean as a border!

We are declaring our rights to our continent and all of its wealth of resources *and* we are declaring our rights to be anywhere on our continent, ignoring the colonial borders of the Europeans who illegally occupy our continent.

5) **GENOCIDE** We protest these racist Europeans because it is our obligation to remind them, and our own people, of the **500 years of Genocide that killed 95% of our population---33 million of our people were killed by Europeans on this continent**, our continent that is falsely called "North America". Another 40 to 70 million were killed in the rest of the "Western Hemisphere". We protest all of this because it is our duty to do this as warriors for our people, it is our duty to **TRUTH & JUSTICE**, it is our duty for the
